Useful Information

Ancient - Finishes may vary. While most shipments have a whitish appearance some may from time to time have a greenish tinge.

Limestone - All Pots and Urns are hand-made. Finishes may vary from white/grey or yellow/copper. The product is fired in a low temperature kiln sometimes resulting in small firing cracks which in no way affects the products structural integrity. We recommend sealing if pots are for outdoor use.

Sealing - Although many of our products will hold water if holes are sealed, they are not completely water proof. We recommend using a reputable sealant if complete water proofing is required.

Fiberstone - Can be ordered in almost any required shape, size and colour for commercial quantities. In most cases with a lead time approx 12-16 weeks.
