“GEEZ LOUISE NO TREES! AND NO PLAS AND ALL THAT JAZ!

Yup! OFC Plastic Free ... 100% Reclaimed, Compostable, Biodegradable & Recyclable!!! Environmentally Friendly & truuuuuly sustainable :)

...We've tricked it out too. 'I am not paper' is made from our 'PlantPulp' tech. Beautifully compostable & biodegradable. So... throw 'I am not paper' products out with the food scraps, add some used coffee grounds, grass clippings from Sunday morning, sprinkle some rain and season with only a little bit of time, & it'll be gone before you know it. '

Voila! all gone. Happy planet! " (www.iamnotpaper.com)
